

Rebranding

More than just new logos and new names

Chardon, OH, May 15, 2012 – e2b technologies (www.e2btek.com), a business software and services provider, announced today the launch of their company rebrand featuring a new identity and new names for its three operating business units. The previous business unit logos featured a "floating ball" which has been replaced with the familiar "paper airplane" logo used for e2b's Anytime brand products. e2b technologies offers the same products and services, but now markets their extensive portfolio of business products and services under a unified brand for the company's three divisions...
