

Epicor Cash Collect

Effectively Manage Outstanding Accounts Receivable

Accounts receivable is one of the largest assets of any company. Take control of your outstanding receivables and reduce days sales outstanding (DSO) through automated accounts receivable management.

Best practice templates are built-in to Epicor Cash Collect to create mail merge documents that can be sent manually or through mass email to customers based on configurable rules using account or invoice information.

Epicor Cash Collect centralizes your credit and collections activities in a single database with integrated email, phone dialer options, and full reporting and analysis. Document phone calls, review cash forecasts, track invoice disputes, and keep everyone informed through automated communications.

You can manage the entire credit department with management hierarchies, optional account assignment, or through collection teams.

Epicor Cash Collect can be installed on-premise or hosted on Epicor's cloud. Purchase and annual subscription pricing options are provided.

Key Benefits

- Reduce Days Sales Outstanding (DSO)
- Improve collections efficiencies
- Standardize corporate collection messaging
- Reduce outstanding receivables
- Streamline and automate communications
- Minimize credit risks and bad debt write-offs
